

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The Journal of Geology

Editorial communications should be addressed to the Editors of The Journal of Geology, The University of Chicago, Chicago, Ill.

Contributors are requested to write scientific and proper names with particular care and in citations to follow the form shown in the pages of the Journal.

Separates, if desired, must be ordered in advance of publication. Separates of leading articles will be printed as ordered, of which 50 (without covers) will be furnished *gratis*, the actual cost of the remainder (and covers, if desired) to be paid for by the author. The table below shows the *approximate* cost of separates consisting of plain text or text with line engravings. The actual cost may vary from the figures given, and will depend upon the amount of work in re-making the pages into forms, press work, paper, binding, etc. Separates containing half-tones may be expected to cost somewhat more than the rates given, the increase depending upon the number of cuts and the amount of work required upon them.

Number of copies	50	100	150	200
Letter-press, for 4 pages or less	\$1.30	\$1.60	\$1.80	\$2.00
Letter-press, for 8 pages or less	1.80	2.20	2.50	2.80
Letter-press, for 16 pages or less	3.20	4.00	4.65	5.30
Single plates (1 double=2 single)80	1.10	1.35	1.60
Covers, with title (paper like Journal cover)	1.20	1.69	2.00	2.40

Business correspondence should be addressed to The University of Chicago Press, Chicago, Ill.

Subscriptions, \$3.00 per year. Single copies, 50 cents. Postage prepaid by the publishers for all subscriptions in the United States, Canada, Mexico, Cuba, Porto Rico, Panama Canal Zone, Republic of Panama, Hawaiian Islands, Philippine Islands, Guam, Tutuila (Samoa), Shanghai. For all other countries in the Postal Union 89 cents for postage should be added to the subscription price. Remittances should be made payable to The University of Chicago Press and should be in Chicago or New York exchange, postal or express money order. If local check is used, 10 cents should be added for collection.

Claims for missing numbers should be made within the month following that of publication. The publishers expect to supply missing numbers free only when they have been lost in transit.

European subscriptions, 16 shillings (postage included), should be remitted to William Wesley & Son, 28 Essex Street, Strand, London, European agents.

Entered March 20, 1893, at the Post-Office at Chicago, Ill., as second-class matter, under Act of Congress, March 3, 1879.

Salisbury's PHYSIOGRAPHY

By PROF. ROLLIN D. SALISBURY of the University of Chicago (American Science Series—Advanced Course). Profusely illustrated. xx + 770 pp. 8vo. Probable price \$4.00. (Ready April 20.)

Intended for College Classes and for Advanced Classes in Normal Schools. The treatment is adequate and full, and the style simple and attractive.

Kellogg's DARWINISM TO-DAY

By PROF. VERNON L. KELLOGG of Stanford University. Author of "American Insects," etc. 8vo. Probable price \$2.00 *net*. (Ready in May.)

A simple and concise discussion for the educated layman of present day scientific criticism of the Darwinian selection theories, together with a brief account of other proposed auxiliary and alternative theories of species-forming. With special notes and exact references to original sources and to the author's own observations and experiments.

Lankester's THE KINGDOM OF MAN

Nature's Insurgent Son; The Advance of Science—1881-1906; Nature's Revenges—The Sleeping Sickness

By E. RAY LANKESTER, F.R.S., Director of the Natural History Departments of the British Museum. With many illustrations. \$1.40 *net*. By mail \$1.52.

Three papers bearing on the necessity for mankind of increased knowledge of nature and of increased control of the natural World—"Man's Kingdom."

The first sketches the origin and progress of man and the consequences of his resistance to the natural law of extermination and survival; the second gives an account of the Advance of Science in the past quarter of a century; the last describes in some detail a case—the sleeping sickness—in which man has brought disease and death on to his own head.

A readable and pictorial survey, brief, but nevertheless accurate, of the recent progress in the many branches of science—all leading towards the conquest and control of nature.

EXTINCT ANIMALS

By the same author. With numerous illustrations. \$1.75 *net*. By mail \$1.95.
